

You've worked hard for your Accounts Receivable

Are your Accounts Receivable protected and working hard for you?

What does ENSHIELD® do?

ENSHIELD® is **not** an Accounts Receivable factoring program. A participant's business continues to own, generate, and collect its Accounts Receivable. ENSHIELD® employs a patent-pending method designed to reposition the value of Accounts Receivable so that they become more productive, and may also provide levels of **asset protection** that otherwise may not exist.

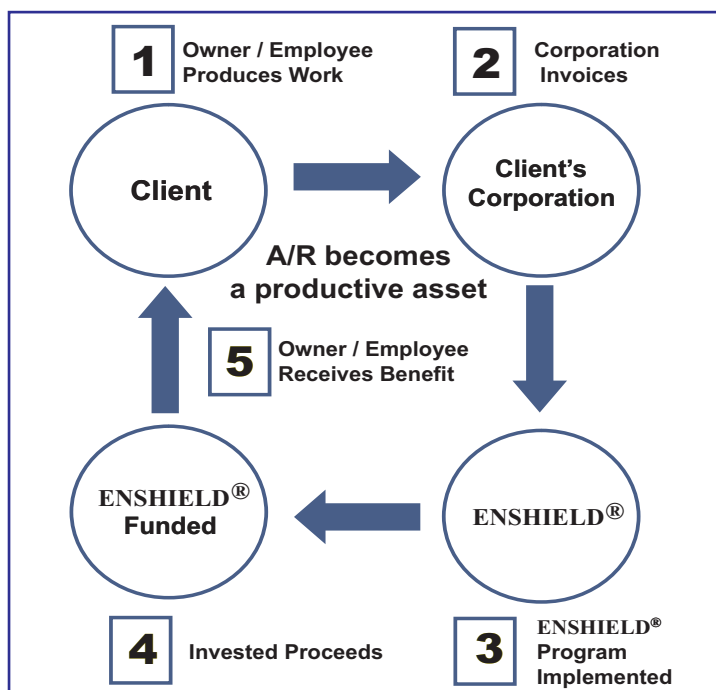

Who can benefit from ENSHIELD®?

Anyone whose business produces Accounts Receivable can benefit from the ENSHIELD® Program. Included among these are Physicians, Attorneys, Accountants, Engineers, Manufacturers, Business Owners, Auto Dealers, and many more!

How does ENSHIELD® work?

ENSHIELD® uses a patent-pending method to duplicate the value of Accounts Receivable and place it on a compound growth curve. The compounding effect using a substantial asset like accounts receivable can then help achieve numerous objectives for the participant.

JOIN THE GROWING NUMBER OF PROFESSIONALS AND BUSINESS OWNERS NATIONWIDE WHO HAVE PUT THEIR ACCOUNTS RECEIVABLE TO WORK AND ARE BENEFITTING FROM The ENSHIELD® Advantage!

What can ENSHIELD® achieve?

- **Wealth Creation**
- **Asset Protection**
- **Retirement Augmentation**
- **Estate Planning**
- **Business Transfer/Transition**
- **Buy/Sell**
- **Employee Productivity and Loyalty**
- **Employee Retention**
- **Educational Funding**
- **Offering of a Non-Qualified Benefit**
